

Declaration of Positive COVID Test

Note: The original of this declaration must be filed at the entry screening desk, and a copy must be presented upon each entry to the College.

Declaration

This declaration is being provided to The Canadian College of Naturopathic Medicine as verification that I have tested positive for COVID 19, and the date on which that positive test was taken.

I, _____, attest that on _____ I had a rapid antigen test, or a PCR test, for the COVID 19 virus and the result was positive. I believe that given the circumstances under which I took the test that this was a true indication of the presence of the virus within my body. I recognize that at this time this will only exempt me from testing upon entry for a period up to 90 days from this positive test.

I acknowledge that filing a false declaration could result in my dismissal from my program of studies, or from my employment with the College.
