Find out if you can travel to Canada – Foreign national - Student

You indicated that you are:
- a foreign national
- an international student

To be able to enter Canada, you must have a valid study permit, and the school you're attending must be considered a designated learning institution (DLI) with a COVID-19 readiness plan approved by its province or territory.

You will **likely be allowed** to enter Canada if you meet these requirements; however, the final determination will be made by a government official at the port of entry.

What you need to do next

- check that your school is a designated learning institution (DLI) with a COVID-19 readiness plan
- bring your valid study permit (or proof of the approval)
- bring a valid letter of acceptance from a designated learning institution (DLI) on the approved list
- bring proof that you have enough money to support yourself and any family members who come with you to Canada
- use ArriveCAN to submit your information
- **if you will be 17 years old or younger** when you arrive, you must follow the checklist of pre-entry testing and quarantine requirements
- **if you will be 18 years or older** when you arrive, you must qualify as a fully vaccinated traveller to enter Canada.
- Exemptions for daily or regular cross-border students and people driving them

▶ Students travelling with immediate family

▶ Students in a health field: quarantine exemptions

This answer does not guarantee entry into Canada

Second step:

- Review and complete **ALL** forms via the CCNM International Student webpage (see links below)

Toronto Campus: https://ccnm.edu/international-student-guidelines

Boucher Campus: https://ccnm.edu/international-student-guidelines-ccnm-boucher-campus

Once CCNM receives your completed forms, Student Services can advise you further.

Third step:

- Complete a Pre-Arrival PCR Test 72 hours before your travel date.

Fourth step:

- Submit your data via the ArriveCan App.

Fifth step:

- Upload Proof of Vaccine & Pre-Arrival PCR Test Results to the ArriveCan App.

All of these steps are required, if you are applying for Quarantine Exemption at the border, as you meet the requirements of being a *"Fully Vaccinated International Traveler"*.

A reminder that entry to Canada is determined by border agent.
