## Ryan MacDonald

**Director, Health AI Implementation | Vector Institute**

Ryan MacDonald is the Director of Health AI Implementation at the Vector Institute, one of Canada's 3 national institutes dedicated to research and application in the field of artificial intelligence (AI). Ryan and his team work closely with health-care institutions and providers to enable health AI deployment in order to improve patient outcomes and care delivery. Before joining Vector, Ryan worked as a Senior Manager in KPMG's Healthcare practice in management consulting focused on transformation in the health and social care space. Ryan has led teams supporting system wide digital and operational transformation in Canada, the United States and the Caribbean. Ryan has a Master of Public Policy from the Munk School of Global Affairs and Public Policy at the University of Toronto and has gone on to do certifications at Cornell University and Massachusetts Institute of Technology (MIT) in data analytics and artificial intelligence.
